First let me tell you that I have reviewed the sales page and I have to hand it to the vendor IM Wealth Builders that this product is going to make a ton of [money](#). So, what is that? Here are some interesting facts that beginner and experienced internet marketer should know or already should know. This product is truly about making YOU money and to do that, keyword research is vital to your success. The features that really attracted me to this product was making money via commission by enticing your current [traffic](#) with the use of this product. If you are relying on google for traffic, then you know the importance of keyword research. Now, not everyone can utilize this product. What I like about the product is, if you utilize keyword research correctly for google free traffic, this product is awesome. I love the product keyword

Here are things I think it should have:

Wish that the product was made for using any not just [Amazon](#)

This looks like a wonderful product. I would say that this product relies heavily on free google traffic. Are there any products that you should look at that does something similar? Sure, there are a few in the wild, but most do not have the features this one has. Winner, Winner, chicken dinner. Ding, Ding, Ding!
